# SUPPLEMENTARY INFORMATION:

## History

On September 17, 1996, the FAA proposed to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) by establishing a Class E airspace area at Hummel Field Airport, Saluda, VA (61 FR 48870). The development of a GPS RWY 1 SIAP at Hummel Field Airport has made this action necessary.

Interested parties were invited to participate in this rulemaking

proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9D, dated September 4, 1996, and effective September 16, 1996, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

#### The rule

This amendment to Part 71 of the Federal Aviation Regulations (14 CFR Part 71) establishes a Class E airspace area at Saluda, VA. The development of a GPS RWY 1 SIAP at Hummel Field Airport has made this action necessary. The intended effect of this action is to provide adequate Class E airspace for aircraft executing the GPS RWY 1 SIAP at the airport.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendment are necessary to keep them operationally current. Therefore, this regulation (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 10034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
